Product End of Life Instructions

LEXIUM 32 I ETHERNET MODULE

Lexium 32i

End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	Comment
To be depolluted	1	Electronic Board (Power) > 10cm²	79,7	
Other			421,4	

Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	The main purpose of the drive control unit of the Lexium 32i is to drive and control the integrated synchronous electric motor and make the link with the command coming from the fieldbus, the inputs/outputs or the Safe Torque Off.
Product reference	LXM32iETH
Additional similar product references	LXM32iETH LXM32iCAN LXM32iECT
Total representative product mass	501,1 g
Representative product dimensions	73mm x 235mm x 174mm
Accessories	No
Date of information release	30/08/2026

Additional information

Legal information	This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.	
In case of special transportation: transportation method	No	
Recyclability potential	**71%**	The recyclability rate was calculated from the recycling rates of each material making up the product based on REEECY'LAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the EIME database and the related PSR was taken. If no data was found a conservative assumption was used (0% recyclability).
