Schneider Electric

Work smarter in less space

Simplify machine and panel design.

Advancing
Energy Tech

Today's industrial panels require faster engineering, reduced footprint, and shorter installation times. Our ready-to-use product ranges help you select, integrate and wire your solutions with maximum efficiency.

Streamlined selection

Ready-to-use solutions

Make selection easier and design faster. Ready-to-use solutions help you quickly find the right fit for your application.

Compact integration

More functions in Less space

When every millimeter counts, compact products help optimize panel layout while maintaining performance and accessibility.

Easy commissioning

Fast wiring & Diagnosis

Speed up installation and maintenance. Simplified connections help reduce wiring time, minimize errors, and accelerate commissioning.

Schneider Electric

Find out which products best suit your needs

	Streamlined selection	Compact integration	Easy commissioning
 **Harmony XB4B*5 XB5A*5**	Ready-to-order complete units	43,2 mm depth	Contact with push-in terminals
 **Harmony RXG*PVP** *Electromechanical*	Complete, pre-assembled relay + socket	16 mm width	Socket with spring terminals
 **Harmony RSL1*PR*** *Electromechanical*	Complete, pre-assembled relay + socket	Slim 6.2 mm width	Socket with spring terminals
 **Harmony SSL1*PR** *Solid State*	Complete, pre-assembled relay + socket	Slim 6.2 mm width	Socket with spring terminals
 **Harmony RMTC*/TP*** *Analog*	-	Slim 6.2 mm width	Easy diagnostic LEDs at the front
 **Harmony XVTS**	Programmable monolithic tower light	-	M12 connector
 **Altivar ATV320**	Built-in CANopen & Modbus connectivity	Book format: 45 mm wide	-
 **TeSys Deca LC1D*A*** *Contactors*	EcoStruxure™ Motor Control Configurator	-	SNAP IN connection
