

## SEC6UTPD305

Cable cat. 6 U/UTP dry

SecurityNET U/UTP twisted cable (unshielded) cat. 6, dry. Is intended for outdoor instalations, no need to use additional covers. It's perfectly suited for installations in computer networks, phone networks, CCTV systems, etc., which may not be exposed to electromagnetic disturbance. It has an outer coating of PE.

### Product features:

- for outdoor use
- tested (measurement performer on the distance of 90 meters with Fluke Networks DSX-5000 measure)
- meets requirements of cat. 6 U/UTP
- also available in versions 6 F/UTP, 6 U/UTP

1. Conductor
2. Sheath
3. Rip-cord
4. Separator

### Technical data:

- construction: 4x2
- conductor core: 0,57mm
- execution core: copper wire (CU)
- insulation core: HDPE 0,98mm
- thickness: 0,6mm
- shell: LDPE 7,0mm
- characteristic impedance 1-250 MHz: 100  $\Omega$
- max. resistance 1-100 MHz: 9,5 ( $\Omega$ /100m)
- impletion: dry cable
- NVP: 66%
- Delay Skew (ns/100m):  $\leq 45$
- color: RAL 7035
- box: 305m, 500m
- CPR class: Fca
