

CCSS-0810-42U

Standing cabinet 19" 42U 800x1000x2055

A line of economical standing cabinets for applications in the installation of ICT systems as well as security systems. CCSS cabinets are a natural complement to the existing offer of elements for building ICT networks. The products of this series require self-assembly, in return offering flexible logistics and low transport costs, while maintaining all the functional features characteristic of classic cabinets supplied in a traditional form. The construction of all cabinets has been designed with the smallest details in mind, so that their assembly and operation take place at a high level of safety and comfort.

Series features

- Adjustable mounting rails.
- Access to devices from all sides of the cabinet.
- Covers, panels and doors equipped with security locks.
- Perforation of elements facilitating air circulation.
- Dedicated brush grommets.
- The cabinet is equipped with earthing cables.
- The design minimizes the protrusion of the bolts to the outsider.
- Possibility to install perforated doors.
